SILICONE LUBRICANT

Silicone Lube is the best-kept secret to a great blowjob! Silicone has no flavor and is water-resistant. Apply the silicone lube to the penis and go down! The lube acts as a barrier, keeping your saliva from absorbing into the skin, making for a nice juicy blowjob!

POLE POLISH OR BLOW ME

Do you have a sensitive gag reflex? Pole Polish is here to help. This thick, creamy body topping tastes delicious as it gently coats your mouth and throat. The coating lessens your gag reflex without actually numbing anything, including the penis.

If you're not worried about a gag reflex, then go for the Blow Me Oral Body Topping. It has the same delicious taste without the added throat coating.

HELPING HEAD

This soft and textured mini masturbation sleeve provides the illusion of deep throating without all the work. Place the sleeve on the base of the penis. Then with your mouth on the head of the penis, use it to stroke the penis in rhythm with your oral motions.

WE-VIBE VECTOR

The We-Vibe Vector provides that something extra special that you can't get with oral sex alone. Adding a prostate massage to a blowjob can lead to bigger orgasms both in size and power. And if you're a guy that can't orgasm from oral alone, the Vector may be just the ticket to O-town!

BLINDFOLD/RESTRAINTS

Sometimes, all it takes to take a blowjob to the next level is a little role-play. A blindfold will take away your sight and heighten your other senses, allowing you to focus and feel every tender touch. If you are feeling extra frisky, let your partner strap you down, so you are completely at their mercy! Letting go of control helps build trust and can be extremely erotic. Try both of these at the same time for a mind-blowing experience!
